

DRAKENSBERG
ENERGY (PTY) LTD

OUR MISSION

**TO BE THE MOST RESPECTED AND RELIABLE
ENERGY PROVIDER IN AFRICA**

OUR VISION

As Liquid Fuel specialists, we have earned considerable respect within the African Petroleum industry for the past 26 years. Our in-depth knowledge of product and market understanding, coupled with our ability to adapt, quickly and ethically, will ensure that we reliably deliver on the energy needs of our customers.

WHO WE ARE

Headed by its Founder and Director – Gonçalo Monteiro (Gonnie), that earned considerable respect within the African gas and fuels industry for the past 26 years, his in-depth knowledge of Fuels and market understanding, coupled with his ability to steer the Company to adapt, quickly and ethically, will ensure that Drakensberg Energy will reliably deliver on the energy needs of its Customers.

It aims to provide modern energies which will support economic and social development in Africa, whilst reducing the environmental and health & safety challenges associated with the use of firewood, coal and paraffin as energy sources.

Drakensberg Energy currently has an Employee Trust already established and gives its current and future HDSA (historically disadvantaged Africans) Employees, a 26% share of its profits (with controlling interest by two of its Directors).

Furthermore, Drakensberg Energy is also an authorised Independent Oils, Fuels & Lubricants Distributor in the SADC region, serving the Industrial, Commercial, Marine, Automotive and Recreational markets.

WHERE WE ARE NOW

Drakensberg Energy has prior to the issuing of its own Wholesale License, been involved in a Joint Venture which allowed it to grow its own portfolio albeit under a different banner.

We have subsequently obtained our own Wholesale Fuels License which enabled the business to begin selling and marketing Fuels and LPG within the borders of South Africa under the name Drakensberg Energy.

Drakensberg Energy has grown its African portfolio servicing over 200 customers in the Democratic Republic of the Congo, Zimbabwe, Zambia, South Africa and Moçambique.

Drakensberg Energy, through its long-standing relationships has contracted primary Fuel supply and LPG ex Beira and Matola. We further have imported supply from Matola / Beira Moçambique and Msasa / Bulawayo Zimbabwe.

We currently have a balanced, growing mix of customers and supply points across our business which mitigates any risks the business or its customers may face.

OUR SUPPLY

50PPM DIESEL

93/95 UNLEADED PETROL

HEAVY FUEL OIL (HFO)

JET A1

VERY LOW SULFUR FUEL OIL (VLSFO)

LIQUEFIED PETROLEUM GAS (LPG)

LIGHT FUEL OIL (LO10)

ILLUMINATED PARAFFIN

OUR INDUSTRIES

Agricultural, Automotive

Construction, Freight

General manufacturing

Marine, Mining, Petrochemical

Power generation and utilities
